

APPROVED UST OPERATOR TRAINING VENDORS

The Department of Ecology (Ecology) has approved the vendors listed below to provide Underground Storage Tank (UST) operator training in Washington. This list will be regularly updated as new vendors receive Ecology approval. The vendor list and additional underground storage tank information can be found on Ecology's web page at:

www.ecy.wa.gov/programs/tcp/ust-lust/tanks.html

As described in Ecology's *Focus on UST Operator Training*, there are three UST operator classes. The vendors listed provide a variety of ways to meet the training requirement, including a supervised examination, classroom, online (web-based), and onsite trainings. Trainings offered below allow the option of taking a specific operator class (ex. A, B or C) or a class that covers material for both Class A and Class B training at the same time (ex. A/B). Class C Operators may receive their required training through one of the approved training vendors or from a certified Class A or B operator.

VENDOR	CLASSES TRAINED	WEBSITES	DETAILS ABOUT THE TRAINING
Antea Group/API	A, B, C	www.APIOperatorTraining.com	Antea Group works in connection with American Petroleum Institute to provide both web-based and classroom trainings. For classroom training, contact Eric Larsen at (888) 951-3456, (425) 498-7713 or eric.larsen@anteagroup.com .
